

**Grade Level:** Kindergarten (Official Shalom Alef Program)

**Subject:** Mathematics

- **Objective:** Establish foundational counting skills (1–7) through the ordered structure of creation, as documented in Genesis 1 (Torah), John 1 (Gospel), and Quran 2:29.
- **Program Overview:**
  - **Activity:** "Ordered Creation Sequence"
    - **Torah Reference:** Genesis 1:1–5 (Day 1, creation of light). Students count “1” and illustrate a single light source to represent order.
    - **Gospel Reference:** John 1:1–5 (the Word as foundation). Students assign “1” to the concept of origin, creating a numerical marker.
    - **Quran Reference:** Quran 2:29 (seven heavens). Students count to 7, placing markers on a timeline of creation.
  - **Core Skill:** Number recognition and sequential counting.
  - **Unified Framework:** Introduces numerical patterns as a universal principle, with reference to Hebrew gematria (e.g., “light”/אוֹר, value 207) as a structural code.
  - **Deliverable:** Students produce an “Order of Creation Chart,” reinforcing numerical and conceptual discipline.
